# UNIT 5 THE INTERNET

5 Read the text and write the names of the people under the pictures.

Hello! I am Maria. I am 16 years old. I love using the Internet. The Internet connection is very important for me because I have lots of friends, and I need to chat with them in the evenings. I share my photos and videos on social networking sites, and my friends comment on them. In my family, everybody uses the Internet every day. My father, Jim, always pays the bills, searches for information, makes travel arrangements and reads newspapers online. My mother, Elena, always does online shopping, uses social networking sites and searches for new recipes. My brother, Jack, always visits useful websites to practice English, sends emails and plays online games. I think the Internet is an important part of our lives and it has many advantages.
